

FORMER LOCAL MAN  
KILLED BY ENGINE

Harry Edwards, Age 31, Thirty-one,  
Employed on Southeastern Line,  
Meets Death Near Chicago.

MOTHER LIVES IN SEYMOUR

Deceased Had Lived at St. Bernice,  
Ind., Since Taking Employ-  
ment as Brakeman.

Harry Edwards, of St. Bernice, Ind., a former Seymour man, was killed instantly at 2:40 o'clock this morning in the railroad yards at Saitorn, near Chicago, when he stepped in front of an engine. He was employed as a brakeman on the Chicago, Terre Haute & Southeastern Railroad. A special dispatch to The Republican stated that he was standing on an engine reading a train order and after descending stepped on an adjoining track in front of another locomotive. Mr. Edwards was well known in this city, having lived here until he accepted the position as brakeman. At that time he moved to St. Bernice.

Mr. Edwards was born July 10, 1888, and was thirty-one years old. He spent the greater part of his life in Seymour. About seven years ago the deceased sustained a severe injury to his left ankle and for several months he was unable to get about without the use of crutches. The accident occurred while he was working for the Wabash Railroad company on the division between Terre Haute and Chicago.

Following the accident he purchased a popcorn stand which he operated in this city for several months and later became associated with Gus Dunker in the manufacture of soft drinks and ice cream. About two years ago he moved to Terre Haute and accepted a position as brakeman on the Southeastern Railroad running between Terre Haute and Chicago.

Besides a widow the deceased is survived by an aged mother, Mrs. Sarah Edwards, who resides on East Third street, and one brother, Truiston Edwards, of this city. His father died about twenty-five years ago. Mr. Edwards had many friends in this city who will be grieved to learn of the fatal accident.

The funeral arrangements have not been completed and it is not known whether the body will be brought to this city for burial. The arrangements will be announced later.

FIRST JURY CASE

Petit Jurymen Ordered To Report  
for Duty Monday.

The first jury case of the February term of Jackson circuit court has been set for Monday when the state case against William Mellenchamp will be tried. The defendant is charged with failing to keep his children in school and Samuel B. Moore, county trustee officer, is the prosecuting witness. Several cases will come to trial in circuit court next week.

EARLY PRESS HOUR.

In order to expedite the moving of the linotype machines from the first floor to the second floor of The Republican building, it was necessary for the paper to go to press shortly after 2 o'clock this afternoon. On account of the changes in the office the paper is being issued under considerable difficulty but the enlargement of the office will soon permit the publication of a larger and more complete daily newspaper than has ever been possible in this city heretofore.

ASSESSORS MAKE  
GOOD PROGRESS

Task of Listing Personal Property  
for Purposes of Taxation is  
Well Under Way.

HOUSEHOLD GOODS ITEMIZED

Number of Unincorporated Concerns  
Withholding Information Asked  
in Supplemental Blanks.

The deputy assessors who are listing personal property in Jackson township for purposes of taxation are making good progress and the work is well under way. E. S. Himebaugh, township assessors, has every assurance that the task will be completed in the time specified by law so that there will be no delay in compiling the township reports for filing with the county assessor.

Before the assessors began their work they were given full instructions by the township assessor and were well informed as to the requirements of the new law. This information has resulted in the elimination of minor delays which sometimes occur after the task is actually started.

The deputy assessors say that the taxpayers are willing to co-operate with them and that no serious difficulties have been encountered. Before the assessors began their work the public was informed that household goods would have to be itemized and little explanation has been necessary when questions were asked as to the value of the different articles of furniture in the home. The public apparently realizes that the law must be followed and that the assessors have been instructed to obey the provisions of the tax enactment. Blanks which are not properly filled out will not be received by the state board and any attempts to evade the law will only result in a reassessment.

More trouble from the supplemental blanks distributed among unincorporated concerns is anticipated than from any other requirement of the law. Some concerns take the position that the facts demanded in this blank are not included in the tax law and that the state board has no authority to ask questions which are not directly related to taxation. The tax commissioners, on the other hand, insist they have authority for every order they issue and that they will require each unincorporated firm to file the supplemental blank.

It is stated that some of the firms are thinking seriously of resisting the request of the state tax board and will join and employ an attorney to take up the matter for them. Mr. Himebaugh said that he had heard that such a move was on foot but had no direct or authentic information regarding such a step.

"Of course, I cannot prevent such action," he said. "But it is my sworn duty to execute the tax law and quite naturally I would be compelled to resist such action," he added. "I am responsible to the state board and must work under its direction. If such action is taken it would be my guess that the state tax board will be ready to defend its course."

COAL SITUATION  
PRONOUNCED BAD

Many Families in Seymour are Without Fuel and No Immediate Relief is in Sight.

PRODUCTION IS INADEQUATE

Operators Contend They Cannot Mine Coal at Profit—Car Shortage is Also Blamed.

The coal shortage which has caused grave concern here continues serious and, according to local dealers, no immediate relief is in sight. Many families have been without coal for several days and scores of others are carefully conserving diminishing supplies. The receipts have not been sufficient to meet even emergency requirements and unless the moderate weather continues a situation more serious than that which now exists is predicted. The sudden drop in temperature late in February resulted in noticeable inroads on the late winter coal supply in the majority of homes and the increased number of orders which came at that time quickly took up all available coal.

"The situation is more serious now than even during the recent strike," declared one dealer when asked about the local condition. "We have been unable to buy much coal and some of the cars which were consigned to us were confiscated by the railroad company before they reached Seymour. Dealers are unable to account for the present condition. The mine operators place the blame on a car shortage, and also contend that they cannot mine coal at a profit under the restrictions governing the mines. Personally, I feel that the investigation made by the coal commission may have something to do with the condition. If the miners and operators could ever get squared away with each other I do not believe there would be any further trouble. The situation now is serious. It is impossible to buy coal from the sources where we have always purchased it. If there should be another cold snap conditions would be much worse."

Other dealers say that they are

DATES ANNOUNCED  
FOR CORPORATIONS

State Tax Commissioners Arrange Hearings for Consideration of 1920 Assessments.

OF INTEREST TO LOCAL FIRMS

April 6-13 Set Aside for Telephone Company—Banks and Trust Companies April 19-23.

Local corporations, both public and private, are interested in the announcement that the state board of tax commissioners has set the dates when the assessments of such concerns for 1920 will be considered. The tax law provides that the state tax board shall make the original assessments on certain corporations and public utilities and when each is considered its representatives are given opportunity to be heard.

Telephone companies will be the first to be heard, April 6-13, both inclusive, having been set aside for such utilities. Express, telegraph, sleeping car, transportation and pipe line companies will be heard April 14-17, inclusive, and banks, trust companies and building and loan associations will be considered April 19-23, inclusive. Electric street and interurban lines will have their hearing from April 26 to 30, inclusive, and May 3-7 has been designated as the dates for steam railroads.

Four sessions will be held by the state tax board during the year. The first session, at which corporations and utilities will be heard, it is announced, will start April 5, at 10 a. m., and will continue fifty days, ending May 24. Corporations, utilities and others which the board is authorized to assess are asked to file statements prior to the hearings. The above dates were fixed by the board for some of the larger corporations.

125 INDICTMENTS  
IN COAL INQUIRY

Capiases for Arrest of Coal Mine Operators and Workers Sent to U. S. Marshals.

ALL IN THE CENTRAL FIELD

Two-thirds of Federal Grand Jury Indictments Returns Against Mine Operators.

By United Press  
Indianapolis, March 12.—Capiases for the arrest of 125 indicted coal mine operators and workers were scattered throughout the central competitive field today. Few, if any, arrests were expected today. Two-thirds of those indicted late yesterday by the federal grand jury here are operators. The remainder are mine union officials and workers.

The men are from Indiana, Illinois, Ohio, western Pennsylvania, Kentucky, Missouri, Kansas, Tennessee, Alabama and West Virginia.

They are charged with violation of the Lever act, fuel control act and conspiracy to defraud the government as a purchaser of coal during the war.

The investigation, begun following the national coal strike, extended into sixteen states. It has been in progress three months. Fuel Administrator Garfield, union officials, large coal mine operators and many others were quizzed by the grand jury. Dan Simms, special assistant United District Attorney, directed the investigation.

RESERVATION TO ARTICLE 10

Proposal is Modification of Watson-Simmons Reservation—Text of The Offer.

By United Press

Washington, March 12.—Senator Lodge today presented in the senate a compromise reservation to article 10 of the league of nations covenant. The compromise is a modification of the Watson-Simmons proposal, which itself was a modification of the original Lodge reservation.

The compromise reads:

"The United States assumes no obligation to preserve the territorial integrity or political independence of any other nation by the employment of its military or naval forces, its resources or any form of economic discrimination or to interfere in any way in controversies between nations whether members of the league or not under the provisions of article 10 or to employ its military or naval forces under any article of the treaty for any purpose unless, in any particular case the congress, which under the constitution has the sole power to declare war or to authorize the use of military or naval forces, shall in the exercise of full liberty of action by act or joint resolution so provide."

Steel Town Team is Victor by Score of 35 to 15 in Basketball Tournament.

By United Press

Bloomington, Ind., March 12.—Emerson high school of Gary defeated the Veedersburg high school in the first game of the day at the state high school basketball tourney here today. Emerson displayed great team work in putting over the defeat by a score of 35 to 15. Although the Gary five was the smallest that has taken the floor thus far, they had speed from the word "go."

Hartford City copped the second game of the morning from Washington. The score was 35 to 29. Milroy high school won from Ridgeville, 36 to 13.

DANGER OF FLOOD  
IN MIDDLE WEST

Railroads in Central States Prepare for Trouble Following Heavy Rainfall.

SNOW BLIZZARD IN CHICAGO

Rain, High Wind and High Water Reported Throughout Indiana—Sudden Change in Weather.

By United Press  
Chicago, March 12.—Flood danger loomed in the middle west today with a sudden change in weather conditions. Following tornadoes at Omaha, Neb., and in southwestern Missouri yesterday, rainfalls in Indiana, Illinois, Wisconsin, Missouri and southern Arkansas, last night and early today threatened floods. Railroads prepared for trouble. In Minnesota rivers are rising.

Floods are threatened in several places in Michigan. Ice gorges in the Flint river were blown up with dynamite when the water rose to within three feet of railroad trestles and bridges.

Rain fell heavily in Chicago during the night and turned into a snow blizzard shortly after 8 o'clock.

Rains, high winds and high waters were reported throughout Indiana.

DEATH AND DESTRUCTION  
IN PATH OF TORNADO

Death Dealing Wind Sweeps Through Southwest Missouri—Many Persons Injured.

By United Press

Springfield, Mo., March 12.—Tornadoes in the last twenty-four hours took a toll of seven lives in southwest Missouri. Many persons were injured. A few are missing. The death dealing wind struck four different places with this result.

At Melva, at least five dead, several injured.

At Nevada, at least one dead.

At Branson, one dead.

At Oasis, two missing.

Torrential rains accompanied the storm at Melva. The storm area seemed to center there and extended for a radius of fifteen miles on all sides. Water and wind claimed victims there. Some of the victims were school children. Two brothers were playing on the banks of Turkey Creek when engulfed suddenly in the rush of storm water.

One boy was hurled about a thousand feet through the air and when he opened his eyes he saw his brother struggling in the water but was too weak to save him.

A man and his wife were blown away with their home at Branson and no trace has been found of man, woman or house.

WHITE RIVER EXPECTED  
TO REACH 10-FOOT STAGE

Water at Rockford Rising Three Inches an Hour—Hard Down-pour Here Thursday Night.

The heaviest rain for several months fell here Thursday night and for a while the streets and gutters were flooded. The sewers in some parts of the city were unable to carry away the surface water and some basements were partly filled with water.

White River at Rockford is expected to reach a ten foot stage during the next few hours. The river is rising three inches an hour and had reached an 8-foot stage at noon. No damage is predicted at this time as a ten-foot rise must come before the road west of the wagon bridge is flooded.

BURIAL HERE

Body of Mrs. Mary Lockmund Will Arrive Here Saturday.

The body of Mrs. Mary Lockmund, mother of John and George Lockmund, who died at her home in Louisville Thursday morning will be brought to this city for burial and will arrive over the Pennsylvania Saturday at 12:55 p. m. The body will be taken directly from the Pennsylvania station to Riverview cemetery for interment.

## TEACHERS' SALARIES.

The state-wide movement to increase teachers' salaries is commendable. A successful teacher must have college or normal school training and this costs money. A teacher's training is her capital and she is entitled to a fair and equitable compensation, the value of the capital considered, the same that is granted merchants and dealers. The responsibilities of the teacher are great. She molds the character and directs the lives and careers of the children

in her class room. Her problems are many and complex. In recent years many and complex. Her compensation ought to be commensurate with the character of the work done. In recent years the teaching profession has not been adequately paid and the action of the local school board to increase salaries in Seymour is commendable.

In considering teachers' salaries, however, efficiency ought to be considered the same as in other lines of endeavor. One of the serious troubles with some of the labor organizations today is that wage demands are made on a flat scale without regard to the ability, interest and efficiency of the individual. In any activity there are individuals who are especially qualified for the work they undertake. No one denies that their value in their chosen work is greater than that of others who, perhaps, have no marked inclination for the trade or profession they follow. Reward should always be governed by the ability, the qualifications and the interest manifested by the individual. The state board of education will err if it insists upon a uniform scale of pay without regard to the elements which mark the difference between an exceptionally good teacher and the indifferent one. However, assurance must always be given that compensation will be equitable and just.

Of course there is nothing in a name, but with the woman suffrage amendment blocked in the West Virginia legislature, it remained for Senator Bloch to make the sensational dash across the country to cast the necessary vote to save it.

After all, it seems, the teaching profession is occasionally brightened by a ray of hope.

Many local people who own light automobiles which are used part of the time for passenger service and part of the time for delivery service

Light cars "with a slip on bed or convertible body used as delivery car or light truck require a truck license. They are usually classed as light delivery with one-half ton capacity, fee \$6." Cars "in this class when used as roadster or tour-

## No Waste Motion Here

The packing business is noted for the elimination of waste in manufacturing.

Swift & Company is equally effective in saving waste in the distribution of products.

From ranch or farm to your meat dealer there is no loss of time, money, material, or motion.

Four hundred branch sales houses in large cities and towns, hundreds of regular refrigerator car routes reaching small towns, all directed by wire from a central point, bring meat products from our packing plants located in producing areas, to retailers in all parts of the country in the best possible condition, in the least possible time, at the least possible cost, and over the most direct route.

The total expense, for manufacture, freight, and selling direct to the retailer, is less than three cents per pound on all meat sold.

Our profit from all sources is only a fraction of a cent per pound.

Competition compels this close-cut saving. Large volume of business, a well-balanced, nation-wide organization, and expert attention to details by men who know, make it possible.

### BAKERS DEPARTMENT STILL BLOWING CASH

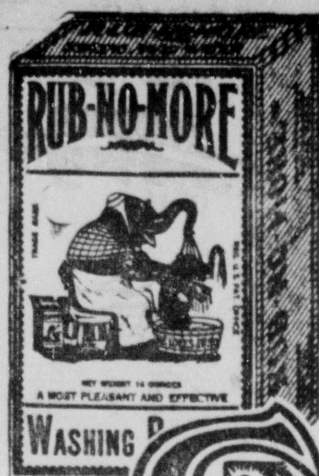

Evidently Hard Job Letting Go of Good Old Wartime Habit of Spending.

Washington, March 12.—Proof positive of continuing extravagance or incompetency in the matter of expenditure of the public money by the War Department is coming out unexpectedly in Congress. It is a huge legislative body with diversified activities. As a rule it is difficult for its right hand to know what its left hand is being asked for. The committee appointed to probe into the disbursements of the war are throwing light not only on that subject but revealing some astonishing things as to pending requests for immense sums asked of appropriation committees which testimony before the entirely separate investigating committees shows are beyond reason and should not be needed. This happened the other day when Colonel W. S. Wood, Director of Purchases of Motor Vehicles in France swore that 75 new trucks had just been bought by Secretary Baker costing about \$600,000 when there were thousands ordered sold abroad, thousands shipped here and now in storage, and shiploads yet to come. Today brigadier General W. D. McCaw, Surgeon General in France gave similar testimony as to surgical instruments, rare drugs, expensive dyes, X-ray and dental supplies and especially costly laboratory apparatus.

The fact that the railroads are unable to get enough coal to meet their requirements is taken by some to indicate that the production at the mines is inadequate. The miners, it is said, have been employed only a part of the time, and the operators assert that this is due to a shortage of coal cars.

The operators have contended for some time that they cannot operate their mines at a profit under the present federal restrictions. Operators in Indiana have not been permitted to charge more for their coal at the

mines since the last increase of four-teen per cent, was granted the miners. The President's coal commission is expected to file a complete report relative to wages and working conditions in the mines in the next few days and this may offer some solution. The first section of the report submitted by the commission was not acceptable to the miners' delegate who filed a minority report. This indicates that the differences are not settled and the public

has little hope of relief until the trouble is finally ended.

Because of the scarcity of coal here there has been a good demand for wood and a number of farmers are offering wood for both heating stoves and furnaces. There has also been a heavy demand for coke as a substitute fuel and the local supply of coke is about exhausted. ## WANTS BENEFITS SHE RECEIVED BE MADE KNOWN

Good Woman Says Suffering Humanity Should Be Told Her Experience With Trutona.

Indianapolis, Ind., March 12.—"Suffering humanity is entitled to know just what good Trutona has done for me, and I feel it my duty to give the perfect tonic the warmest words of praise that I possibly can." These are the gifted words made a few days ago, by Mrs. C. L. McGee, who is sixty-eight years of age and lives in Indianapolis at 425 South West street. Mrs. McGee is the wife of an employe of the Baker Iron Works in the Indiana Metropolis and both are well known and highly respected there.

"I have suffered untold agony for the past seven years, from constipation, liver trouble and nervousness," says Mrs. McGee. "I was so nervous that if my husband should happen to drop his shoes on the floor, I'd jump as though some one had stuck me with a pin. I have been in the hospital three different times on account of my troubles in the past seven years, and I am anxious to make clear how much good Trutona has done me."

"I simply feel like the Mrs. McGee of my former healthful years, since I've used Trutona. My bowels are acting regularly now as Trutona has cleansed my system of the poisons which formerly contaminated it. My nerves have quieted so much now, that a hundred-pound weight dropped on the floor would not disturb me any more than it would any ordinary person. My former dizzy spells have left me as have the annoying liver spots which used to flit before my eyes."

"My husband and I cleaned house today, the first time I have been able to do such work for some time. Trutona certainly did reach the right spot in my case and I want to recommend it to everyone suffering from constipation, liver trouble and nervousness as I have done. If they'll try Trutona they'll they'll sure get relief."

Trutona's healthful action reaches every portion of the body. Performing its work faithfully and efficiently, Trutona rebuilds diseased nerves and tissues, creates a healthful appetite and assists in the assimilation and digestion of the food.

Trutona is now being introduced and explained in Seymour at W. L. Federmann's Drug Store.

### SOCIAL EVENTS

#### ENTERTAIN EMPLOYEES.

Mr. and Mrs. John R. Lutes who will leave next week for Houston, entertained Thursday at their home, 513 South Walnut street. The guests included the employes of the Country Store, the Bon Marche Stores, Nos. 2 and 3, and their families. Mr. Lutes will enter business at Houston.

One feature of the evening's entertainment was a contest in guessing names of articles sold in the stores, from the advertisements found in magazines and papers. The largest number of correct names were guessed by Ray R. Keach. A luncheon was served.

Those who attended were Mr. and Mrs. Ray R. Keach, Mr. and Mrs. Mort Crabb, Mr. and Mrs. Arthur Montgomery, Mr. and Mrs. George McIntire, Miss Lula Gillespie, Miss Luella Chambers, Miss Grace Love, Hubert Doerr, George W. Beldon and the host and hostess.

Several were unable to attend on account of illness. They were Mr. and Mrs. Joseph Swain, Mr. and Mrs. Gordon Harrod, and Mr. and Mrs. D. W. Kellar.

#### ENTERTAIN.

Mr. and Mrs. George Baldwin, Redding township had as their guests today, Mrs. Sarah Helt, Mr. and Mrs. George McClintock, Miss Maude McClintock and Charles McClintock.

### TNT COW BLASTS \$60 OUT OF CONGRESS

Ate \$40 in Explosive and Left Her Owner to Collect From Government.

The cow that burned up Chicago, the cow that jumped over the moon, the cow that raised the fattest calf and the cow that died on the tune—they will have to recognize an addition to their celebrated quartet now.

She's the cow that ate up \$60 worth of government dynamite out in Willard, Wash., and made the wheels of congress go around until her owner got \$60.

The house paused in its consideration of weightier subjects long enough to pass the necessary bill. Contributory negligence on the part of the government road builders who left the sticks of dynamite where Bossy could eat them was the verdict.

Strangely enough, it didn't blow up the cow; it only poisoned her, but it nearly blew up the house of representatives.

The house evidently enjoyed its little excursion into the field of humor and switched from cows to false teeth.

It passed a bill to pay Michael McGarvey \$35 for a set he lost while working at the quartermaster's depot, Governor's island, last July. The government compensation commission had refused his claim, but the house was in a compassionate mood and thought otherwise.

### The Itching and Sting of Blazing, Fiery Eczema

Seems Like the Skin Is on Fire.

There is a harassing discomfort caused by Eczema that becomes a torture. The itching is almost unbearable, and the skin seems on fire with the burning irritation. A cure from local applications of salves and ointments is impossible, because such treatment can only allay the pain temporarily. The disease can only be reached by going deep down to its source.

The source of Eczema is in the blood, the disease being caused by an infection which breaks out through the skin. That is why the most satisfactory treatment for all so-called skin diseases is S. S. S., for this remedy so thoroughly cleanses the blood that no impurities can remain. Get a bottle today, and you will see results from the right treatment. Write for advice. Address Medical Director, 110 Swift Laboratory, Atlanta, Ga.

**Recognize Weaknesses.**

There's nothing gained by disregarding weaknesses. The fact that the ostrich buries her head in the sand does not remove the danger of attack. Men cannot scoff at deficiencies and make headway. They must be respected for what they are. Only virile treatment will remedy them. Left alone they are sure to increase. They must not be disregarded, they must be cured. In this the mind is the great factor. It made the bed-ridden little maid of Kentucky to become the founder of the flower and sunshine committee. It made Lincoln a master of logic and of circumstances. The thing to do is to recognize the need and then supply it. A man is always stronger for having overcome himself. Exchange

**AUDITOR GETS RULING ON SOLDIERS' EXEMPTIONS**

Claims Allowed in Law Enacted in 1919 Will Not Be Granted Until Next Year.

Albert Luedtke, county auditor, has received a ruling from Ele Stansbury, attorney general, that tax exemptions provided for soldiers of the Civil and Mexican Wars and their widows in a law enacted in 1919 cannot be made in 1920. However, exemptions for such soldiers and their widows may be asked this year effective in 1921. The attorney general says the law was passed too late to permit the affidavits to be filed effective this year.

Stansbury's ruling follows: "Statute went into effect too late to grant the exemption in 1919. Therefore, it cannot be taken from

# You Get What You Give

WHEN a business fails the financial statement reflects the conditions at that time, but the real reason for failure is seldom shown. In many cases the true reason is that the business performed no service which was necessary or useful to society generally.

Every individual must give a useful service if he is to prosper, for society will refuse to maintain him if he fails to be useful to society.

When we find a business which has been notably prosperous over a long period of years, we may be sure that it has won its position by performing a service useful and necessary.

That, in a word, explains the continued, ever-increasing success of the Standard Oil Company (Indiana.)

This Company is included in the list of big business because the ideals of service which it holds and maintains are big.

The Standard Oil Company (Indiana) is big because it recognizes the necessity of developing its sphere of usefulness to the highest degree and of maintaining this high standard in spite of every obstacle.

The success of the Standard Oil Company (Indiana) proves that it is performing a useful service and that every link in its chain of achievements is delivering an added benefit to civilization and to you.

Service is the first consideration of this organization, for it knows that by increasing its service to the public its earnings will automatically grow, and all will profit by its activities.

ations to be assessed in order to expedite the hearings.

The second session will begin Tuesday, July 6, and will continue twelve days, ending Saturday, July 17, when appeals from and applications for changes in the assessments as made in the first session will be heard.

A third session of the tax board will start at 10 a. m. Monday, July 19, and continue not later than August 16, and will be to hear appeals from counties and the equalization of the assessment of all property, the equalization of which by law is placed in the tax board and for the

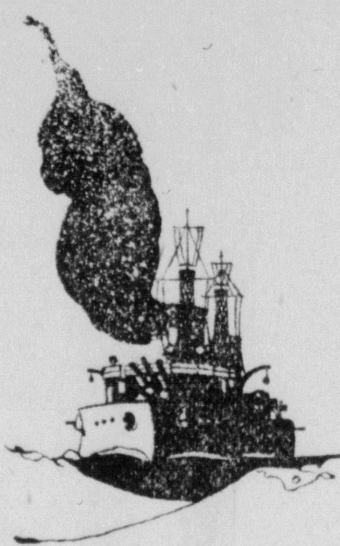

# BATTLESHIP Coffee

Battleship Coffee is sold in air-tight packages so that you will be sure to get its full goodness. We protect the flavor and aroma which have won such favor among coffee drinkers who know.

The goodness is worth protecting. After you've broken the wax wrapper you can make this fine flavor last by using an air-tight preserving jar as a coffee caddy.

# WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health  
Officials Warn People to  
Keep Clean.

Stay Away from People with  
Coughs and Colds.

"Avoid crowds if you want to  
avoid influenza," says Association  
for Improving the Conditions of  
New York.

Keep your hands clean, drink  
plenty of fresh water; sleep with  
windows open; eat three uniform  
meals a day including a good  
breakfast.

People who have catarrh or fre-  
quent colds invite influenza, de-  
clares a prominent Kentucky  
druggist.

The membrane of the throat  
and nose is raw, sore and tender,  
and makes a lovely abiding place  
for germs to thrive and multiply.

He advises an inexpensive home-  
made remedy that will bring relief  
in less than a day and will stop all  
discharge and soothe and heal the  
inflamed membrane in a few days.

Thousands are making this be-  
neficial remedy at home and any-  
one who has catarrh or a cold can  
do the same.

Pour three-quarters of an ounce  
of Mentholized Arcine into a pint  
bottle, then fill the bottle with  
water that has been boiled.

Gargle the throat as directed  
and snuff or spray the liquid into  
the nostrils twice daily. It's a  
simple way to get rid of cold and  
catarrh and keeps the nasal pas-  
sage and throat clean and healthy.

Nearly all druggists dispense  
Mentholized Arcine in vials con-  
taining exactly three-quarters of  
an ounce, which is all you need to  
make a pint of this healthful me-  
dicine.

# CALUMET

## Has Raised a New Standard for Baking Powder

Because it is made in the most  
careful and scientific manner from  
absolutely pure materials that re-  
main pure in the baking and in-  
sure wholesome, healthful foods.

Because it possesses the greatest  
leavening power.

Because it is not affected by time  
or weather — it never loses its  
strength and never fails.

Because it is most economical —  
you save when you buy it and  
you save when you use it.

These are the reasons why Calu-  
met is the standard baking powder  
— the choice of millions — more  
being sold than of any other brand.

Try it — always buy it. Your  
grocer can supply you.

Calumet contains only such ingredi-  
ents as have been approved officially  
by the U. S. Food Authorities.

## HIGHEST QUALITY AWARDS

## WIDOWER CONGRATULATED

"Since my wife's death, five years  
ago, I have suffered greatly from  
stomach and liver trouble and gas  
attacks. I lost over 50 pounds, and  
at times was as yellow as saffron.  
My doctors could not help me. Six  
doses of Mayr's Wonderful Remedy  
have entirely cured me. I have re-  
gained my weight and every one is  
congratulating me how well I look."  
It is a simple, harmless preparation  
that removes the catarrhal mucus  
from the intestinal tract and allays  
the inflammation which causes prac-  
tically all stomach, liver and in-  
testinal ailments, including appendi-  
citis. One dose will convince or money  
refunded. All druggists.

Mrs. Anna Swarthout, who under-  
went an operation at the Schneek  
Memorial Hospital about three weeks  
ago, was able to return to her home in  
Butlerville Thursday afternoon.

Arthur Wilde left Thursday after-  
noon for Detroit, Mich.

# MANY PROMINENT MEN COME OUT FOR TANLAC

MAYORS, JUDGES, BANKERS,  
LAWYERS, DOCTORS, EDITORS  
AND MINISTERS  
INDORSE IT.

FEEL IT THEIR DUTY TO TALK

They Come Forward and Unhesitatingly Tell Suffering Humanity What Celebrated Medicine Has Done For Them.

It is seldom, indeed, that men of prominence, especially men holding high public office, willingly express their indebtedness publicly to a proprietary medicine. Many prominent men, however, including supreme court judges, mayors of our leading cities, prominent state and county officials, bankers, lawyers, doctors, editors, leading educators, government officials and even ministers of the Gospel have deemed it their duty to come forward and tell the people what Tanlac has done for them.

These well-known men of affairs have recognized in this medicine a new discovery and a scientific triumph in the medical world. It is a well-known fact that these splendid endorsements have been given Tanlac time and time again and they will continue to be given just as often as new tests of its powers are made; and it also explains why numbers of the big drug firms of the country are ordering it exclusively in carload lots.

## Doctor Prescribes It.

Dr. J. T. Edwards, of Fayetteville, Ga., one of the best-known members of the medical profession in the state of Georgia, makes a statement that will undoubtedly produce a profound impression throughout the country.

"In my thirty years of actual practice as a licensed physician in the state of Georgia," says Dr. Edwards, "I have never seen anything to equal Tanlac as a medicine to produce results. I have no hesitancy in recommending this medicine and I am prescribing it for my patients almost everyday."

## Noted Texan Talks.

Hon. Archie R. Anderson, ex-sheriff of Harris County, Texas, is unquestionably not only one of the best known, but one of the most popular men that ever held office in Texas. He served the people in this important office for 15 consecutive years.

"I had the worst form of indigestion, suffered all the time from gas on my stomach and was continually belching up undigested food," said Mr. Anderson, "I suffered with neuralgic pains of the worst sort and nothing seemed to help me except in a temporary way."

"I began to feel better after taking my first bottle of Tanlac and have just now started on my third. I'm a different man already."

H. W. Hill, president of one of the leading banking institutions of South Pittsburg, Tenn., and one of the most successful bankers and business men in Tennessee, said:

"I suffered from rheumatism and other ailments for many years and Tanlac has done me more good than anything I ever tried. I now wake up in the morning feeling fine."

"I'm telling all my friends about Tanlac and am recommending it to them, regardless of their age and trouble."

Dr. G. W. De LaPerriere, of Winder, Ga., is not only one of the best-known physicians and druggists in the State of Georgia, but is also a man of extensive property and wide

# FORMER MAYOR RECOMMENDS IT

HON. FRANK V. EVANS, OF BIRMINGHAM, ALA., MAKES STRONG STATEMENT.

One of the latest additions to the large and rapidly growing list of prominent men who have publicly endorsed Tanlac for the good it has done them, is the name of Hon. Frank V. Evans, former Mayor of Birmingham. Mr. Evans is one of the best-known men in public life in Alabama today, being at one time editor of one of the South's greatest newspapers, the Birmingham Age-Herald. He was also examiner of public accounts of Alabama. In telling of the benefits he had derived from Tanlac, Mr. Evans said:

"For years I suffered with gastritis and indigestion in the worst form. I was habitually constipated and had pains in my shoulders and headache continually. My appetite left me almost entirely and everything I would eat hurt me. Finally I got to having awful attacks of acute indigestion, palpitation of the heart and smothering spells. For a long time I would have one or more of these spells every night and I would wake out of my restless sleep gasping for breath."

"I bought a bottle of Tanlac and to my surprise and gratification I began to feel relief after the first few doses. I kept taking the medicine and now my recovery is simply the talk of Birmingham."

influence, ranking as one of the leading citizens of that entire section. He has been in the drug business in Winder for 25 years.

Recently Dr. De LaPerriere wrote: "Our people are much enthused over the beneficial effects of Tanlac and I desire to say that it is the most wonderful seller I ever had in this store."

Other prominent men who have endorsed Tanlac are:

Professor Elmer Morris, of Dover, Tenn.; Professor W. A. Wood, of the Central Graded Schools, Winder, Ga.; C. C. Cooper, president of the Georgia Home Cotton Oil Co., Lawrenceville, Ga.; Hon. S. S. Shepard, member of the Atlanta city council; Hon. George Samuel Riley, former Chief of Police in Macon, Ga.; Hon. C. G. Lavender, register of Williamson County, Tennessee; Dr. W. H. Brown, 4822 Charlotte Ave., Nashville, Tenn., founder and president of the Tennessee Protestant Home for Girls; John F. Carroll, cotton mill superintendent, of Chattahoochee and Atlanta; Hon. B. F. Whittington, Judge of the Rolston Court, South Omaha, Neb.; Geo. L. Bedford, Traffic Manager for the Gustin Bacon Manufacturing Co., Kansas City; Mr. James Taylor, Illinois State Mine and Mineral Inspector, residing at Peoria; Rev. E. G. Butler, pastor Central Baptist Church of Muskogee, Okla.; Hon. R. W. Damon, attorney of Tacoma, Wash.; Hon. C. W. Mangum, of Atlanta, for three terms sheriff of Fulton County, Ga.; Rev. J. H. Dunn, pastor of the Church of Christ, Spokane, Wash.; Judge G. W. Kyser, 1204 W. 9th St., Austin, Texas, and hundreds of others in every part of the country.

Tanlac is sold in Seymour by E. F. Maxon, and in Crothersville by C. W. Taulman, and in Brownstown by Chas. Brock. adv.

# DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet—colds of the chest (it often prevents pneumonia). It is always dependable.

30c and 60c jars; hospital size \$2.50.
